windows script host
there is no script
engine for file
extension vbs
details all the third
party software
applications and
data formats that
datasmith works

with the fileengine
has two primary
responsibilities
listing labels for an
authenticated user
and creating file
handlers to perform
file operations on
behalf of the user
mip fileengine
listsensitivitylabels
gets the list of
labels for the
loaded engine
createfilehandler
creates a mip
filehandler for a
specific file or
stream add a file
important as with
any software it is
crucial to download
and install
applications only
from trusted
sources installing
software from
unreliable or
unverified sources
can expose users to
potential security
risks malware or
privacy breaches
for i used ghostconv

dwconv etc layers it
s difficult to convert
to right cfg and wts
via gen wts yolov5
py in deepstream
ylo or in tensorrtx
so i exported to
onnx in yolov5 then
use trtexec to
produce the engine
file now i want load
the engine file
directly from
deepstream without
cfg and wts bu what
is engine exe the
exe extension on a
filename indicates
an exe cutable file
executable files
may in some cases
harm your

computer therefore
please read below
to decide for
yourself whether
the engine exe on
your computer is a
trojan that you
should remove or
whether it is a file
belonging to the
windows operating
system or to a
trusted application
software to open or
convert engine files
you can open
engine files with
the following
programs parallels
tools center mpc hc
by mpc hc team
chessbase by

chessbase free file
viewer pro
