Islam and Secularism in the Middle East 2000-10 western civilization tends to view secularism as a positive achievement from this perspective benefits of secularizing trends include the separation of church and state the rule of law and freedom from organized religion in the arab middle east however islamist intellectuals increasingly cite western inspired secularism as the source of the region s social dislocation and political instability while secularism in the west led to the spread of democratic values in the muslim world it has been associated with dictatorship the violation of human rights and the abrogation of civil liberties islam and secularism in the middle east examines the origins and growth of the movement to abolish the secularizing reforms of the past century by creating a political order guided by shariah law contributors explain the islamic rejection of secularism as a failed western christian ideal and also discuss how secularization was pioneered by those who thought muslims could only advance politically by emulating western practices including the renunciation of religion

Overcoming Orientalism 2021 orientalism is the term applied to scholarship that reduces islam and muslims to stereotypes of ignorance and violence in need of foreign control it has been used to rationalize europe s colonial domination of most of the muslim world and continued american led interventions in the post colonial period in the past 30 years it has been represented by claims that a monolithic islam and equally monolithic west are distinct civilizations sharing nothing in common and indeed involved in an inevitable clash from which only one can emerge the winner most recently it has appeared in alt right rhetoric anti muslim sentiment measured in public opinion polls hate crime statistics and legislation is reaching record levels since john esposito published his first book nearly 40 years ago he has been guiding readers beyond such politically charged stereotypes the essays in this volume highlight the contributions of scholars from a variety of disciplines who like and often inspired by john esposito recognize the misleading and politically dangerous nature of orientalist polarizations they present islam as a multi faceted and dynamic tradition embraced by communities in globally interconnected but substantially diverse contexts over the centuries the contributors follow esposito s lead stressing the profound commonalities among religions and replacing orientalist discourse with holistic analyses of the complex historical phenomena that affect developments in all societies in addition to chapters focusing on diversity among muslims and interfaith relations this collection includes chapters assessing the secular bias at the root of orientalist scholarship and contemporary iterations of orientalism in the form of islamophobia

Islam and the West after September 11 2002-06-17 many today warn that the muslim world and the west are on a collision course the depth and intensity of animosity expressed by bin laden and his al qaeda followers led some to ask why do they hate us the temptation for some american government officials and political commentators was to condemn and dismiss to explain away anti americanism as irrationality ingratitude jealousy of us success or hatred for the american way of life this approach fails to get at real issues as governments respond to the threat of global terrorism must be balanced by evidence that establishes a direct connection of guilt and by strikes that are focused rather than wide ranging and indiscriminate a disproportionate response runs the risk of a backlash in the middle east and the broader muslim world as well as among american and european muslim citizens that erodes the goodwill of many and reinforces an image of a superpower again placing itself above international law the war against global terrorism should not justify a gradual erosion of important principles and values at home or become a green light to authoritarian regimes in the muslim world to increase repression there is also a need to adopt a more balanced policy in the israeli palestinian conflict if foreign policy issues are not addressed effectively they will continue to provide a breeding ground for anti americanism hatred and radicalism the rise of extremist movements and recruits for the bin ladens of this world short term foreign policies that are necessitated by national interest must be balanced by long term policies and incentives that pressure our allies to promote a gradual and progressive process of broader political participation and power sharing **Islam** 1991 provides a survey of the islamic experience introducing the faith belief and practice of islam from its origins to the present day
