Jesus and Paul before Christianity 2011-10-14 what thomas paine did for the american revolution with the publication of common sense marilyn ferguson does for the transpersonal revolution with the publication of this astonishing call to internal arms marilyn ferguson is one of the preeminent thinkers gatherers synthesizers and interpreters of research on all the cutting edge fields of human consciousness the aquarian conspiracy published in 1980 has sold 2 5 million copies and has been continuously in print the book was hailed as the handbook of the new age by usa today and is widely

regarded as one of the most important books of the twentieth century as the harbinger of a new segment of society stemming from the vastly enlarged concept of human potential before there were cultural creatives and influencers before there were spiriteers before there was what the bleep do we know there were the aquarian conspirators pioneers of social transformation a quarter of a century later ferguson's original charge still resonates regardless of the name associated with her audience they are still philosophically the same as those who came before in her new book aquarius now movement pioneer ferguson reexamines the paradigm shift to a more mindful society and finds us wanting she sees us caught in a mindless materialism that ironically threatens our material existence we are seduced by what she calls the cult of numbers obsessed with competition with winning and losing afraid of anything that can't be seen or measured and in the grip of an economic model that says only that which generates economic growth is worth pursuing what can we do in the past ferguson argues whenever things weren't going that well for any tribe or society they literally gathered their belongings and hit the road but it's too late for that there's nowhere left to go ferguson boldly tells the truth we have no enemy except ourselves and the mess we've made individually and collectively by refusing to get to know ourselves to see what we're doing to our own bodies our own minds and to society and the earth itself we've refused to consider the clues in front of our faces the imbalance we see outside ourselves only mirrors the imbalance within the way to heal the imbalance is to heal ourselves the way to heal ourselves is to pay attention to witness and then we need to reclaim our personal sovereignty we need to take responsibility for our own actions we need to heed the words of the myriad teachers and skills at our disposal we need to learn to rely on our own radical common sense we need to create the new age in our hearts and minds and carry it out into the world or within that which we have chosen to ignore lie the wisdom power and impulse to change or the task is not to climb a

mountain but to navigate a river we have to stop thinking of ourselves as conquerors and start thinking of ourselves as fellow travelers with other human beings and every living being on this planet including the planet itself o heroism is nothing more than becoming our latent larger selves ferguson dares to ask the question can we change and concludes that we can and we must change the age of aquarius will occur when we want it to occur in aquarius now radical common sense and reclaiming personal sovereignty ferguson gives us a way to say yes to life itself o by reclaiming the word radical from its current usage meaning extremist and going back to its root meaning the essence or substance of things o by returning to the original meaning of common sense the consensus of all of one s senses that power of mind which perceives truth by an instantaneous instinctive and irresistible impulse derived not from education nor from habit but from nature in the quarter century since marilyn ferguson s aquarian conspiracy defined pulled into focus then accelerated the transformational shift in consciousness known as the human potential movement much has changed read all about it in aquarius now

Cyprus Within the Biblical World 2021-03-25 this volume moves discussion of ancient israelite culture beyond concepts of isolation and borders factoring in already well known insights from classical studies and ancient history that take greater account of the impressive connections between all the countries bordering the mediterranean sea specifically the contributors focus on cyprus and the bible and offer archaeological and biblical insights to consider how and in what ways cyprus and cypriot culture was related to biblical life and perceptions though the mediterranean separated palestine from cyprus it also joined them archaeological finds expose significant trade relations and cultural commonalities not only in the hellenistic and late roman eras but for many centuries prior these relations developed and became even more intimate in

the later biblical period as evidenced by early jewish and christian writings by exploring various methods of cultural contact the contributors suggest that further examination of cultural links between cyprus and palestine in the biblical period can repay dividends in understanding the development of ancient israelite religion early judaism and early christianity

Althusser and Theology 2016-09-07 jason a myers reconsiders the meaning and context of the phrase the obedience of faith in rom 1 5 and how it contributes to the theme of obedience in romans in contrast to previous studies that have nearly exclusively focused on the obedience language in light of the hebrew bible and second temple literature myers instead investigates how this language functioned within the greco roman world particularly in the discourse of the roman empire by studying both the greco roman contexts and the use of obedience language during the empire myers sheds fresh light on the meaning of the obedience of faith and concludes that such examination helps contemporary readers understand how gentiles in paul s audience would have heard and received the terms and images relating to obedience in addition he argues that paul s use of obedience language both at the beginning and end of romans 1 5 15 18 serves as rhetorical bookends and signals a theme that is central to paul s purpose in romans and integral to his calling as an apostle to the gentiles

Recovering an Undomesticated Apostle 2023-04-01 Paul the apostle is usually imagined as a man of prestige and power comfortably conversing with philosophers seeking an audience with the emperor and composing compelling letters for Christians throughout the Mediterranean yet this portrait of a safe and conventional figure at the origins of Christianity airbrushes out many strange things about him this volume repositions Paul as a man at the periphery of power recovering an undomesticated apostle explores the ways that Paul has been domesticated in both popular and scholarly imagination by isolating selected crises of the apostle's life and legacy and

examining the social and material dimensions of his world these essays collectively chip away at the received image of his strength and status the result is a series of glimpses of paul that frame the apostle as surprisingly marginal and weak within roman society published in honour of new testament scholar leif e vaage recovering an undomesticated apostle presents paul as a man operating from a position of desperation making virtue out of necessity as he attempted to claw his way up in the dog eat dog world of the ancient mediterranean

Fruits of the Spirit 2015-11-15 there are many ways to be a christian in good news for moderns author nero james pruit shows that within the pages of the new testament there is room for a diversity of christianities this is a diversity that is not talked about often but when properly understood expands the perception of what a christian is consider the words of justin martyr the second century christian writer recognized as a saint by the catholic church the anglicans and the eastern orthodox in about 150 ad we are taught that christ is the first born of god and we have shown that he is the reason word of whom the whole human race partake and those who live according to reason are christians even though they are counted atheists such were socrates and heraclitus among the greeks and those like them consider the words of john adams the second president of the united states in 1816 the ten commandments and the sermon on the mount contain my religion consider the words bill clinton the forty second president of the united states in 1955 i had

absorbed enough of my church's teachings to know that I was a sinner and to want Jesus to save me finally consider the words of the writer of the small New Testament book of I Corinthians. John whoever does good is from God. Good news for moderns is based on Pruitt's reading of the scriptures and over one hundred authors of various points of view. In our busy time it is brief slightly more than one hundred thousand words supplemented by slightly less than one hundred thousand words of end notes. It recognizes that human life moves by fast in what seems like an infinity of time and space and the book closes this way by listing many who have come before us and the immensity of time and space I have underscored the brevity of our lives because as a psalmist taught recognizing our own mortality is the path to wisdom.

amid competing portrayals of the cynic Jesus the peasant Jesus and the apocalyptic Jesus the political Jesus remains a marginal figure. Douglas E. Oakman argues that advances in our social scientific understanding of the political economy of Roman Galilee as well as advances in the so-called Third Quest for the historical Jesus warrant a revival and a critical revision of Hans Reimarus's understanding of Jesus as an instigator of revolutionary change.

Marilyn Ferguson is one of the preeminent thinkers, gatherers, and interpreters of research on the cutting edge fields of human consciousness. *The Aquarian Conspiracy* published in 1980 has sold millions of copies, is continuously in print, and was hailed as the handbook of the New Age by USA Today. Remember When... 2014-01-14 this is volume 2 of a wide ranging interfaith reading of the letter to the ephesians a new testament text whose words have inspired and enhanced christian spiritual life and liturgy over the centuries unfortunately at the same time ephesians has provided apparent scriptural support to those who would defend slavery patriarchy misogyny and the physical power of christ over the cosmos how on earth are today s christians to receive and understand such a text as this earthing the cosmic christ of ephesians the universe trinity and zhiyi s threefold truth draws upon a broad array of scientific theological and philosophical thinkers who enable us both to marvel at today s ever expanding knowledge of our vast cosmos and to appreciate the importance of the ephesian letter in the canon of our christian scriptures even while we acknowledge the archaic geocentric cosmology that underlies its claims about the cosmic christ and reject its accommodation to the patriarchal misogynistic and slaveholding norms of its first century culture throughout this reading of ephesians we look to chinese buddhist master zhiyi and his threefold truth to enhance our understanding of trinity and the nascent trinitarian themes within this letter as a whole this work constitutes a new appreciation for ephesians as well as a twenty first century apologetic for doctrinal humility and for theologizing within a global theological commons

Want to Start a Revolution? 2009-12 the resurrection of jesus is at the very root of christian faith without belief in jesus christianity dies in this thought provoking work matthew levering defends the credibility of the claim that jesus rose from the dead drawing on the work of n t wright levering shows that the historical evidence vindicates this assumption and reveals that the gospels were backed by eyewitnesses who were living and telling their stories even during the time of the writing of the gospels the author also emphasises the importance of evaluating the old testament to

validate jesus resurrection by highlighting the desire both in the ancient world and now to make the resurrection more comprehensible by spiritualizing it leveraging argues that the fact that the disciples themselves did not do this provides a further clue to reliability finally the author addresses the question of why jesus does not continue to show himself in his glorified flesh after his resurrection which is often seen as a strong case for scepticism however he shows that jesus entire mission is predicated upon helping us to avoid cleaving to the present world over god he is leading us to where he is the kingdom of god the beginning of the new creation at the father s right hand by developing these arguments for the historical reality of jesus resurrection this ground breaking study expertly draws together historical and theological reasons for believing that jesus resurrection happened

Aquarius Now 2005-10-10 who was the real founder of christianity as it is known today jesus or paul what if any was the connection between them these and other questions about the two historical figures have occupied biblical scholars and the christian church for many years up to the present time this book proposes new ways of framing the questions as well as new approaches to answering them neither jesus nor paul spoke of a new world religion separate from judaism that would envelop the planet and last for millennia this study seeks to locate both figures in their respective places in the first century in jewish contexts and within the larger greco roman society the aim is to transcend the language and thought patterns of later generations of theologians in order to hear more clearly the prophetic voices of jesus and paul on their terms and in their social locations by so doing shillington lays the groundwork for a more authentic translation of their vision and mission into modern alternatives including better jewish christian relations

and it does not necessarily translate automatically into clear contemporary ecclesial policy it still serves as an important foundation for discussion collins gives careful consideration of the methodology to be used in approaching the question and to important aspects of the sociocultural context of first century palestine within which the new testament took form he then explores what jesus said to the disciples several disciples own statuses as married men and paul s teaching and personal example on marriage raymond collins has served the church through his thoughtful and scholarly exegetical work for decades this latest work of his will long be counted among his best

A Revolutionary Conscience 2012 in first century palestine the countercultural jesus movement defied the social norms of the roman empire by creating alternative communities of shared life and goods in service to the poor jesus proclaimed an unconventional society that challenged systems of male domination social inequality economic disparity and violence this way of life defined christianity for three hundred years until the emperor constantine invited the church to help rule an empire and its countercultural lifestyle was replaced by a dogmatic belief system in the postmodern secular world of the global north the shrinking church has lost its prophetic voice and has proven ineffectual in the face of evil and injustice this book is a call to return to the countercultural way of jesus it proposes a way forward through the creation of new communities of resistance small cells of cultural nonconformity that conspire for justice and strive for peace in the world

Pauline Perspectives 2013-11-01 this relatively new culture of the adult faith seeker originated in the closing decades of the twentieth century as developmental psychology highlighted the changing nature of growth and maturity at different life stages accompanied by the information explosion adult people particularly began to ask questions for which they sought adult answers the co-dependency of earlier times expecting adults to simply accept what religious authorities taught is alien to adult religious maturity adult faith has arrived at a new threshold requiring novel approaches and strategies in the religious development of adult people Diarmuid O Murchu charts this evolutionary development highlighting dimensions of conventional religion which no longer inspire or offer hope along with those that nurture and mature and sheds new light on the spiritual horizons which contemporary adults seek to embrace the result is a path-breaking book that empowers adult faith seekers to confidently grow in wisdom and in grace and that enables the church to use its resources to strengthen the faith of its people at a time of great change in how people think about religion
