*For a New Liberty: The Libertarian Manifesto* 1978 classic radical feminist statement from the woman who shot andy warhol life in this society being at best an utter bore and no aspect of society being at all relevant to women there remains to civic minded responsible thrill seeking females only to overthrow the government eliminate the money system institute complete automation and destroy the male sex outrageous and violent scum manifesto was widely lambasted when it first appeared in 1968 valerie solanas the woman who shot andy warhol self published the book just before she became a notorious household name and was confined to a mental institution but for all its vitriol it is impossible to dismiss as the mere rantings of a lesbian lunatic in fact the work has proved prescient not only as a radical feminist analysis light years ahead of its time predicting artificial insemination atms a feminist uprising against underrepresentation in the arts but also as a stunning testament to the rage of an abused and destitute woman in this edition philosopher avital ronell's introduction

See *No Stranger* 2020-06-16 from chef and food activist Alice Waters an impassioned plea for a radical reconsideration of the way each and every one of us cooks and eats in we are what we eat Alice Waters urges us to take up the mantle of slow food culture the philosophy at the core of her life's work when Waters first opened Chez Panisse in 1971 she did so with the intention of feeding people good food during a time of political turmoil customers responded to the locally sourced organic ingredients to the dishes made by hand and to the welcoming hospitality that infused the small space human qualities that were disappearing from a country increasingly seduced by takeout frozen dinners and prepackaged ingredients Waters came to see that the phenomenon of fast food culture which prioritized cheapness availability and speed was not only ruining our health but also dehumanizing the ways we live and relate to one another over years of working with regional farmers Waters and her partners learned how geography and seasonal fluctuations affect the ingredients on the menu as well as about the dangers of pesticides the plight of fieldworkers and the social economic and environmental threats posed by industrial farming and food distribution so many of the serious problems we face in the world today from illness to social unrest to economic disparity and environmental degradation are all at their

core connected to food fortunately there is an antidote waters argues that by eating in a slow food way each of us like the community around her restaurant can be empowered to prioritize and nurture a different kind of culture one that champions values such as biodiversity seasonality stewardship and pleasure in work this is a declaration of action against fast food values and a working theory about what we can do to change the course as waters makes clear every decision we make about what we put in our mouths affects not only our bodies but also the world at large our families our communities and our environment we have the power to choose what we eat and we have the potential for individual and global transformation simply by shifting our relationship to food all it takes is a taste

for the growing movement of conservatarians  
members of the right who are fiscally

the conservatarian manifesto charles c w cooke

engages with the data and the philosophy behind this movement applauding conservatarianism as a force that can help republicans mend the many ills that have plagued their party in recent years conservatarians are vexed by republicans failure to cut the size and scope of washington d c but they are critical of some libertarians for their unacceptable positions on abortion national defense and immigration they applaud conservatives efforts to protect second amendment rights efforts that have recently been wildly successful but they see the war on drugs as an unmitigated disaster that goes against everything conservatives ought to value all movements run the risk of stagnation and of losing touch with the principles and values that made them successful in the first place in this book charles cooke shows the way back to a better and more honest conservatism that champions limited government reality based policy and favor for the smallest minority of all the individual

book but as violence against black people both physical and psychological seemed only to increase in recent years culminating in the historic pandemic and protests of the summer of 2020 he felt compelled to write a new story for black americans he envisioned a succinct counterintuitive and impassioned corrective to the myths that have for too long governed our thinking about race and geography in america drawing on both political observations and personal experience as a black son of the south charles set out to offer a call to action by which black people can finally achieve equality on their own terms so what will it take to make lasting change when small steps have so frequently failed it s going to take an unprecedented shift in power the devil you know is a groundbreaking manifesto proposing nothing short of the most audacious power play by black people in the history of this country this book is a grand exhortation to generations of a people offering a road map to true and lasting freedom
